For the drugs that have a site-of-care requirement, the NovoLogix online tool will prompt you to select a site of care when you submit prior authorization requests for this drug. If

the request meets clinical criteria for the drug and is for one of the following sites of care, it will be approved automatically:

- Doctor's or other health care provider's office
- Ambulatory infusion center
- The member's home, from a home infusion therapy provider

Note: Prior authorization and site-of-care requirements don't apply to the UAW Retiree Health Care Trust (group number 70605) or the UAW International Union (group number 71714).

More about the requirements

Authorization isn't a guarantee of payment. As always, health care practitioners need to verify eligibility and benefits for members.
