

Medicare implantable ambulatory event monitors **questionnaire removed from the e-referral system**

On May 26, 2024, we removed the *Medicare implantable ambulatory event monitors* questionnaire from the e-referral system. This questionnaire no longer opens for Medicare Plus Blue or BCN Advantage members. However, procedure code *33285 continues to require prior authorization.

We're updating the [Authorization criteria and preview questionnaires](#) document on the **ereferrals.bcbsm.com** website to reflect this change.

As a reminder, we use our authorization criteria, our medical policies and your answers to the questionnaires in the e-referral system when making utilization management determinations on your prior authorization requests.
