### For members beginning therapy on or after June 1

For members beginning therapy on or after June 1, submit prior authorization requests through the NovoLogix® online tool. It offers real-time status checks and immediate approvals for certain medications.

To access NovoLogix, log in to our provider portal ([availity.com](https://availity.com)\*), click *Payer Spaces* in the menu bar and then click the BCBSM and BCN logo. You'll find links to the NovoLogix tools on the Applications tab.

Note: If you need to request access to our provider portal, see the [Register for web tools](#) webpage on [bcbsm.com](https://bcbsm.com).

The NovoLogix online tool will prompt you to select a site of care when you submit prior authorization requests for this drug. If the request meets clinical criteria for the drug and is for one of the following sites of care, it will be approved automatically:

- Doctor's or other health care provider's office
- Ambulatory infusion center
- The member's home, from a home infusion therapy provider

Additional information or documentation may be required for requests to administer Alyglo in an outpatient hospital setting.
