Share Your Feedback on the New Provider Prior Authorizations Website Before Launch - Sneak Peek Available Until Dec. 16

The new Provider Prior Authorizations website is launching in March, replacing the current **ereferrals.bcbsm.com** website. This new site will still offer information on referrals, prior authorizations, and plan notifications requirements, but with an enhanced, streamlined user experience.

We're excited to introduce this new website, but we'd like to hear your thoughts first. We invite you to visit our sneak peek preview and share your feedback with us. To access it, simply visit **ereferrals.bcbsm.com** and click the link in the orange banner at the top of the page. Explore the available pages and remember to leave your thoughts by clicking the feedback link in the green bar at the bottom of any page.

Knowing your time is valuable, we've limited the feedback survey to just five questions. We appreciate your input and encourage you to share your opinion before **Monday, Dec. 16**, when we will remove the sneak peek.
