

Eventy to have additional step therapy requirements for Medicare Advantage members starting May 1

For dates of service on or after May 1, 2025, providers will have to show that our Medicare Plus Blue and BCN Advantage members have tried and failed **both of the following medications** when requesting prior authorization for Eventy[®] (romosozumab-aqqg), HCPCS code J3111:

- An oral or IV bisphosphonate (for example: Fosamax[®], Reclast[®] or Boniva[®])

Note: IV bisphosphonates don't require prior authorization.

- Prolia[®] (denosumab), HCPCS code J0897

Submit prior authorization requests through the NovoLogix[®] online tool when these drugs will be billed as a medical benefit.

When prior authorization is required

These drugs require prior authorization, as applicable, when they are administered by a health care provider in sites of care such as outpatient facilities or physician offices and are billed in one of the following ways:

- Electronically through an 837P transaction or on a professional CMS-1500 claim form
- Electronically through an 837I transaction or using the UB04 claim form for a hospital outpatient type of bill 013x

How to access NovoLogix

To access NovoLogix, log in to our provider portal (availability.com*), click *Payer Spaces* in the menu bar and then click the BCBSM and BCN logo. You'll find links to the NovoLogix tools on the Applications tab.

Note: If you need to request access to our provider portal, follow the instructions on the [Register for web tools](https://bcbsm.com/providers) webpage at bcbsm.com/providers.

List of requirements

For a list of requirements related to drugs covered under the medical benefit, see the [Medical Drug and Step Therapy Prior Authorization List for Medicare Plus Blue and BCN Advantage members](#).

We'll update this list prior to the effective date.
