Preview questionnaires and medical necessity criteria

For some of the above services, health care providers are prompted to complete questionnaires in the e-referral system. Refer to the [Preview questionnaires and medical necessity criteria](#) on the [authorizations.bcbsm.com](#) website for:

- Links to preview questionnaires that show the questions you'll need to answer in the e-referral system so you can prepare your answers ahead of time
- Information about how to access medical necessity criteria and the criteria source for each service

As a reminder, we use the pertinent medical necessity criteria and your answers to the questionnaires in the e-referral system when making utilization management determinations on your prior authorization requests.
