

Register for a Q&A session for acute care providers about changes for Medicare Advantage home health services managed by tango

Starting June 1, 2026, acute care hospitals must submit referrals to home healthcare directly to tango for Medicare Plus Blue and BCN Advantage members. The grace period, which allows hospitals to submit requests to home health agencies, will end May 31, 2026.

To support a smooth transition, tango is hosting a series of Q&A sessions designed specifically for acute care hospital staff. These sessions are open to anyone who is involved in the referral process and will address common topics, such as:

- How to submit referrals to tango
- What changes take effect June 1
- What information is required for successful referral processing
- Integration with discharge planning platforms
- Tips to avoid delays in patient care
